

Safety Data Sheet (SDS)

Sodium Antimonate

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Substance name:	Sodium Antimonate (SA-A,SA-AF,SA-C)
Company name:	NIHON SEIKO CO., LTD.
Address	3-2 SHIMOMIYABI-CHO SHINJUKU-KU TOKYO 162-0822 JAPAN
Charge section	SALES DEPT.
Phone number	+81-3-3235-0031
Fax number	+81-3-3235-0034
E-mail address	mail@nihonseiko.co.jp
Emergency telephone number	NAKASE REFINERY QUALITY ASSURANCE SECTION +81-79-667-2121
Recommended use and restriction on use:	Industrial materials: Flame-retardant agent, glass fining agent, Ceramic glaze, etc.

2. HAZARDS IDENTIFICATION

GHS classification :	Classification not possible or Not classified
GHS label:	
Hazard pictogram	Not applicable.
Signal word	Not applicable.
Hazard statements	Not applicable.
Precautionary statements	【Prevention】 Not applicable. 【Response】 Not applicable. 【Storage】 Not applicable. 【Disposal】 Not applicable.
Other hazard not applicable to GHS classification hazard:	No information.
The summary of important signs and assumed emergency:	No information.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Substance/Mixture:	Substance
General product description:	Sodium Antimonate
Other name:	SA-A,SA-AF: Sodium Antimonate Anhydrate SA-C: Sodium Antimonate Trihydrate
Chemical property (Chemical formula etc):	SA-A,SA-AF:NaSbO ₃ SA-C:NaSbO ₃ · 3H ₂ O
CAS number:	SA-A,SA-AF:15432-85-6 SA-C:33908-66-6
Component and its content:	SA-A,SA-AF:98.4% SA-C:99.4%

<p>EINECS number:</p> <p>Impurity and stabilizing additive that contribute to GHS</p> <p>Classification:</p>	<p>SA-A,SA-AF:239-444-7 SA-C:251-735-0</p> <p>As: 0.03% Pb: 0.01%</p>
<p>4.FIRST AID MEASURES</p> <p>Following inhalation:</p> <p>Following skin contact:</p> <p>Following eye contact:</p> <p>After ingestion:</p> <p>Most important symptoms and effects ,both acute and delayed:</p> <p>Protection of person who do first aid:</p> <p>Special precaution statement for doctor:</p>	<p>Move affected person to fresh air. If you feel sick, seek medical attention. Wash with water and remove clothes if necessary. Flush eyes thoroughly with water, also under eyelids. Rinse mouth with water. If you feel sick, seek medical attention.</p> <p>No information.</p> <p>No information.</p> <p>No information.</p>
<p>5.Fire-fighting measure</p> <p>Extinguishing media:</p> <p>Unsuitable extinguishing media:</p> <p>Special hazards arising from the Substance or mixture:</p> <p>Specific fire-fighting:</p> <p>Protection for fire-fighter:</p>	<p>Use fire-fighting measures that suit the environment. The product is not combustible and does not support the combustion. No information.</p> <p>No information.</p> <p>Move the product to safe place promptly when it is a fire in the surrounding. If it is non-transferable, sprinkle the container and the circle with water and cool down. Wear suitable protective equipment in fire-fighting.</p>
<p>6.Accidental release measures</p> <p>Personal precautions, protective equipment and emergency procedures:</p> <p>Environmental precautions:</p> <p>Methods and material for containment and cleaning up:</p> <p>Prevention of second disaster:</p>	<p>Avoid formation of dust. Ensure adequate ventilation. Keep unprotected persons away. It is advised to avoid contact with skin, eyes, and clothing – wear suitable protective equipment. Avoid inhalation of dust.</p> <p>It is advised that in the event of an accidental release the product should be prevented from reaching the sewage system or any water course and penetrating the soil. Dispose of spilled material in accordance with the relevant regulations.</p> <p>In any case avoid dust formation. Sweep all spilled material or use an appropriate industrial vacuum cleaner. Collect spilled material in suitable containers or closed plastic bags for recovery or disposal.</p> <p>For more information on exposure controls/personal protection or disposal considerations, check section 8 and 13 of this safety data sheet.</p>

7.Handling and storage	
Handling:	
Technological countermeasure	Provide a local dust collection system in the places where dust can be generated. Provide dust protective mask in the handling position.
Safety precaution	Do not handle until all safety precautions have been read and understood.
Avoid contact	Work by wearing suitable protective equipment.
Hygiene measure	No information.
	Avoid inhalation or ingestion.
	General occupational hygiene measures are required to ensure a safe handling of the substance.
	These measures involve good personal and housekeeping practices (i.e. regular cleaning with suitable cleaning devices).
	No eating, drinking and smoking at the workplace.
	Wash hands after use.
	Remove contaminated clothing and protective equipment before entering eating areas.
	Shower and change clothes at end of work shift.
	Do not bring contaminated clothing at home.
	Do not blow dust off with compressed air.
Storage:	
Safety storage condition	Store in well ventilated dry area with low humidity and sealed state.
Safety packaging material	Establish whether the container conforms test standard on a voluntary basis.
8.EXPOSURE CONTROLS / PERSONAL PROTECTION	
Exposure control limits	
Effect of over exposure:	
ACGIH(2021)	0.5mg/m ³ TLV-TWA (Antimony and compounds, as Sb)
Engineering controls:	Prevent formation of dust where possible. Ensure appropriate ventilation/exhaustion at machinery and places where dust can be generated. Any deposit of dust which cannot be avoided must be regularly removed using preferably appropriate industrial vacuum cleaners.
	Waste air is to be released into the atmosphere only when it has passed through suitable dust separators.
	Waste water generated during the production process or cleaning operations should be collected and should preferably be treated in an on-site waste water treatment plant which ensures efficient removal of sodium antimonate.
Personal protective equipment:	
Respiratory protection	Dust protective mask(As appropriate)
Hand protection	Protective gloves
Eye protection	Protective glasses
Skin and body protection	Protective high boots and cloth
Special precaution statement	Avoid environmental discharge.
9.PHYSICAL AND CHEMICAL PROPERTIES	
Appearance:	
Physical state	Solid
Figure	Powder
Color	White
Odor:	Odorless
Melting point:	No information.

Initial boiling point and boiling range:	No information.
Flammability (solid, gas):	Non-flammable. This substance does not contain any chemical groups that might lead to spontaneous ignition a short time after coming in contact with air at room temperature (circa 20°C). Furthermore, long-term industrial experience in handling shows that the substance does not ignite in contact with air.
Upper/lower flammability or explosive limits:	Non explosive. Sodium antimonate exhibits no chemical groups indicating explosive properties.
Flash point:	Not applicable as only relevant for liquids or low melting point solids.
Auto-ignition temperature:	Not relevant since this would require heat to be developed either by reaction of this substance with oxygen or by exothermic decomposition and which is not lost rapidly enough to the surroundings.
Decomposition temperature:	1,427 °C
pH:	No information.
kinematic viscosity:	No information.
Solubility(ies):	NaSbO ₃ : 247mg/l (20°C - pH 6) NaSbO ₃ • 3H ₂ O: 594mg/l (20 °C - pH 6.6)
Partition coefficient n-octanol/water:	No information.
Vapor pressure:	No information.
Relative density:	NaSbO ₃ : 4.0 NaSbO ₃ • 3H ₂ O: 3.9
Relative vapour density:	No information.
Particle characteristics:	No information.
Other:	No information.
10.STABILITY AND REACTIVITY	
Reactivity:	No information.
Chemical stability:	Under normal conditions of use and storage, the product is stable.
Possibility of hazardous reactions:	No information.
Conditions to avoid:	Avoid dust formation.
Incompatible materials:	No information.
Hazardous decomposition products:	No information.
Other:	No information.
11.TOXICOLOGICAL INFORMATION	
Acute Toxicity (Oral):	LD ₅₀ rat > 2,000 mg/kg bw (Robertson, 2005)
Acute Toxicity (Dermal):	Conduct of an acute dermal toxicity study is unjustified as inhalation of the substance is considered as major route of exposure and physicochemical properties of the substance do not suggest a significant rate of absorption through the skin.
Acute Toxicity (Inhalation: dust/mist):	LC ₅₀ rat > 5.4 mg/L (Leuschner, 2010).
Acute Toxicity (Inhalation: fume/vapors):	Out of category to powder.
Skin corrosion/irritation:	Based on read-across from diantimony pentoxide, sodium antimonate does not require a classification as skin irritation. (Robertson, 2005) Sodium antimonite does not require a classification as skin corrosion.
Serious eye danger/irritation:	Sodium antimonate does not require a classification. (Leuschner, 2009)
Respiratory or skin sensitization:	Based on read-across from diantimony pentoxide, sodium antimonate does not require a classification. (Robertson, 2005)

<p>Germ cell mutagenicity:</p> <p>Carcinogenicity: Japan Society for Occupational Health ACGIH EPA NTP EU IARC</p> <p>Reproductive toxicity: STOT single exposure:</p> <p>STOT repeated exposure: Aspiration hazard:</p> <p>Other:</p>	<p>Based on available data, Sodium antimonite does not require a classification as germ cell mutagen.
